An Enterprising Young Woman Breaks the Record.

MURDER, ARSON AND HORSE STEALING.

A Combination of Vices Which Has Few Parallels—A Young Woman's History for Three Months.

NEWBERG, N. Y., June 19.—A girl is under arrest here for horse stealing. She will also be charged with arson and murder. Within three months she is said to have married an old farmer, burned down his house and barn, roasted his weak-minded son to death in the fire and wound up by running off with a livery team and surrey and trading them for other horses and a wagon.

EXTRADITING A DEFAULTER.

Difficulties Made by the German Government in the Affair.

WASHINGTON, June 19.—The State Department is informed that the German Government declines to surrender True W. A. Hoyt, the defaulting employe of the Gaslight Company of Philadelphia. There is no extradition treaty with Germany treating of Hoyt's offense. While the German Government is willing to surrender him without a specific treaty they make the stipulation that it was only upon condition that this Government would recognize the demand of the German Government for the surrender of escaped criminals whose crimes are not covered by the existing treaty. Of course this condition could not be accepted, but in the meantime this Government has been in communication with the Government of Great Britain and is hopeful of securing Hoyt in the end. He is within British jurisdiction at Southampton, where extradition proceedings have been begun and the German steamship officers' interference prevented his arrest there.

TRAVEL ALLOWANCES.

The home trade competition is greatly improved.

PHILADELPHIA, June 19.—The jury in the Meer and Dickinson test suit against the Government, to recover the duties paid on importations of hat trimmings, returned a verdict this morning in the United States Circuit Court in favor of the plaintiffs. The plaintiffs claimed that the goods were liable to 20 per cent duty, while the officials held they were dutiable at 50 per cent. The Government will appeal the verdict to the Supreme Court. By the verdict the Government is liable for from twenty to thirty millions of dollars that it collected in duties from importers of millinery materials in various parts of the country.

The other members of the family will recover. An examination showed that poison had been mixed with the flour. The authorities are convinced that the poisoned flour and coffee were intended for Sheffler's family and are looking for the miscreant among those known to be at enmity with the farmer.

ARGENTINA.

President Pellegrini's Annual Message.

ROSE-COLORED VIEW OF THE SITUATION.

The Deficit for the Past Year—The New Loan—The Prospects for the Coming Year.

WASHINGTON, June 19.—The Bureau of American Republics received a copy of the annual message of President Pellegrini of the Argentine Republic laid before Congress in May last. He states that the only exceptional measures he was compelled to adopt were declaring the city of Buenos Ayres in a state of siege and the suppression of a few newspapers that were stirring up strife. Concessions of national lands, covering 50,000 square miles, which had been made to speculators for colonization purposes were revoked, as the holders of the concessions failed to carry out the conditions on which they obtained the land. The public works have of necessity been suspended for lack of funds. Assisted immigration from Europe had been stopped. The revenues for 1890 were in currency $73,400,000; expenditures, $92,850,000; leaving a deficit of $19,500,000. The revenues for 1891 had been calculated at $26,000,000 gold. President Pelligrini expresses the hope that the country, by the aid of the "Morratoribus" loan negotiated in London, would be able to pay its way.

TREMENDOUS LOSSES BY THE FINANCIAL CRISIS.

This year's trade returns were encouraging. Exports were increasing and imports declining, but the financial crisis, the President says, grows worse daily. The paper money, of which there are two hundred and sixty millions in circulation, has sustained a loss of 80 per cent. He estimates the losses since the crisis began at £200,000,000 sterling. The National Bank now owes the Treasury $60,000,000 currency and $2,000,000 in gold. He considers the best solution of the financial difficulties would be to correct the deficits of the State banking system, revive the credit of the State banks and enable them to continue. For this purpose he recommends a Parliamentary Commission, but, he adds, 'the gold standard is the insuperable difficulty in the way of resuming specie payments. If we want a metallic basis we must resort to silver. All the objections raised against a silver standard may apply to Europe, but do not affect us."

THE TELEGRAPHERS.

Negotiations for the Amalgamation of the Two Orders

Run Across a Snag in a Constitutional Requirement—Election of Officers for the Year.

ST. LOUIS, June 19.—The Grand Division of the Order of Railway Telegraphers decided to purchase outright the organ of the Order of Railway Telegraphers. It is now stated that the Railway Telegraphers and the Brotherhood have struck a snag in their negotiations looking to amalgamation. The hitch, it is said, is caused by a clause in the law of the Railway people by which it is provided that an operator must have done railroad telegraphing for three years before he can become a member. The Brotherhood people are sticking out for a one-year qualification. They say the three-years' limit would bar out fully thirty per cent of the commercial operators. Another conference between the two associations will be held today. The following officers were elected for the ensuing year: A. D. Thurston of Vincent, Ia., grand chief telegrapher; S. O. Fox of Vinton, grand secretary and treasurer; G. D. Ramsey of East St. Louis, assistant grand chief telegrapher; Senor Leicanda of Mexico, grand senior telegrapher.

THE NEGOTIATIONS OFF.

This morning the Judiciary Committees of the order of Railway Telegraphers and the officers of the Brotherhood of Telegraphers met. The Judiciary Committees reported that the Grand Division had refused to reduce the time of the eligibility clause of their law, whereupon the Brotherhood officers called all the negotiations off. The order of Railway Telegraphers will apply for membership to the Federation of Railway Employes, but says that assurance has been given the Brotherhood people by members of the council that neither organization will be admitted until an amalgamation is reached.

TEMPORARY RELIEF

From the Embarrassments of a Great London House.

LONDON, June 19.—There are rumors prevailing in financial circles here today as to the difficulties between Murrietta, the head of the banking house of Murrietta & Co., recently transformed into a limited liability company, and the trustees and executors of the new corporation, owing to the discovery of liabilities of Murietta & Co. presented to the trustees and executors of the corporation, and it is also said that fresh liabilities have been incurred since the formation of the Limited Liability Company, which require the further subscription of nearly $1,750,000 in order to avoid a calamity. Later the money necessary for the immediate requirements of the company was raised among the stockholders, thus affording the concern temporary relief.

Which Is More Apparent Than Real. The Money on Deposit in the Banks—The Receipts.

WASHINGTON, June 19.—The statement of the United States Treasury issued today shows an apparent deficiency of $787,108. This, however, does not include $23,627,600 on deposit with the National Banks and $29,221,030 fractional silver. Including these two items the cash balance is $43,061,000. The officials of the Secretary's office say that exclusive of the National Bank deposits and fractional silver there is an actual available balance of $2,812,000 in the Treasury today, and that the Treasurer's statement, including the reports of that date will show it. There will be a constant excess of receipts over expenditures during the remainder of the month, and it is estimated that the net surplus will be at least $7,000,000 by the 1st. SHE WANTS TO QUIT.

Twenty Years the Wife of J. A. Brown Is Long Enough.

MRS. BROWN SAYS THAT HE WAS CRUEL.

The Wife of the San Leandro Nurseryman Who Eloped Secures Her Divorce.

Maggie A. Brown, who has been residing with her husband, John A. Brown, in East Oakland, has come to the conclusion that she can live happier alone, so today she commenced a suit to secure a divorce. Indeed, if the charges made in her complaint be true, she can certainly have a pleasanter home alone than with a man who beats her every day. For twenty years she has been a wife, so she says, and has tried to struggle along and prevent her husband from squandering his earnings on liquor. For the past five years he has been a hard drinker, and almost every day came home in an intoxicated condition, and while under the "influence" would abuse his wife in a shameful manner. On one occasion he struck her in the face with his clenched fist and then picked her up and threw her through the window of the cottage. Fortunately she struck the ground in a position which, though the fall gave her a great shock, prevented any serious injury. Subsequently Brown concluded that with his fists he could not administer punishment enough, so one day he put on a pair of brass knuckles and deliberately struck his weak little wife in the face. The blow was a terrific one, and she fell to the floor like a log in an unconscious condition. For weeks after the woman suffered from the effect of the blow. Besides a divorce she asks to be awarded the community property, valued at $1200; $30 a month alimony and $100 counsel fees. There is no issue of the union. E. J. Rogers is attorney for the wife.

Adam J. Trecher, a carpenter who has resided in Oakland for many years, was given a surprise party by his wife Anna a little over a year ago. He was living in a neat little cottage with his wife and baby, and everything appeared to him to be going along happily. That his wife was dissatisfied had never been suggested to him. He was called away for three days on business on one occasion, and when he returned his wife and baby were gone. There was a message for him, however, to the effect that she had gone to the home of her parents, near Fresno, and had left him never to return. She was weary of his company and had made a mistake in taking him for a husband. A year has passed, and now Mr. Trecher asks the court for a divorce on the ground of desertion.

Lu Sweet this morning secured permission to serve her absent husband, W. H. B. Sweet with a summons in her divorce suit by publication. Sweet is in England and is said to be equally anxious as his wife for divorce.

Edward S. Parker has filed an answer to the divorce complaint filed by Fannie C. Parker and denies the charge that he deserted her and asks for a dismissal of the case.

Mrs. L. Fosetti has been granted a divorce from Gaspare Fosetti on the ground of infidelity. The community property, valued at $5000, was divided out of court.

JOSEPH BLACK'S ESTATE.

The Executors Are Anxious to Dispose of Personal Property.

Mary E. Black and E. R. Lilienthal, executrix and executor of the estate of Joseph Black, deceased, are endeavoring to close up the affairs of the estate, and today reported to the court that they have sold at private sale to Leon Sloss for $12,000 the personal property on the Pleasanton farm, consisting of five horses, farming implements, etc. They represent that the price agreed to be paid by Sloss is a top figure, and that the amount could not be secured were it not for the fact that E. R. Lilienthal has agreed to lease the property from Sloss for a period of two years at a monthly rental of $200. Mrs. Black has been granted a family allowance, and besides this she would be entitled to have a considerable portion of the personal property set apart for her own use and for the use of her family, but as she is desirous of having the estate realize as much as possible, she has waived all rights in this regard accorded her under the statute. There has already been presented over $60,000 in claims against the estate. The petitioners ask that the sale to Sloss be confirmed as it is for the best interests of the estate.

WENT BACK TO MAMMA.

Harry Scott Was Weary of a Wife so He Went Home to Germany.

Harry Scott was wedded in Oakland about three years ago. His wife, Julia, was of an amiable disposition, but Scott soon wearied of life in Oakland and longed for mamma and his old home at Hamburg, Germany. In order to make home a little more interesting, Mrs. Scott adopted a little girl, which is still in her custody. A little over a year ago Scott kissed his wife good-by one day and told her that he was going on a little trip to San Diego. She wished him a pleasant journey, and waited and watched for his return, but he never came. After months of worrying she learned that he had deserted her, and, instead of going to San Diego, he went directly to Hamburg, Germany, where he is now living with his mother. Mrs. Scott brought a suit for a divorce, and today the case was referred to the Court Commissioner to take testimony.

TRUE TO HER HUSBAND.

A Wife Who Is Willing to Make a Living for the Family.

Charles S. Brown until recently conducted an hotel at San Diego. The bottom dropped out of business in the southern part of the State and Brown was landed high and dry on the beach of insolvents. Brown was compelled to leave the country of failure and so he came to Oakland, where business is pushing. His wife is now going to take the helm, and she has made an application to become a sole trader. She does not desire a divorce from her husband, because she says no grounds for one. The wife says that she proposes to conduct an hotel in this city, but at present she has no capital to invest in the business. The family consists of the husband and wife and a daughter and son, aged 19 and 16 years, respectively.

PUTTING IN A NEW CABLE.

No Trips to Piedmont After 9:45 O'clock This Evening.

A new cable is to be put in on the Broadway branch of the Piedmont cable road this evening to replace the present cable, which has done service for a long time. Recently the grip of one of the cars ran into a bumper, breaking the rope, and a new piece was spliced in. This splice has caused a great deal of trouble and has been the cause of frequent delays. The other day a strand broke, and at this point, and caused the stopping of the cars for half a day.

The new rope will be stretched after 10 o'clock tonight.

The last car to Piedmont will leave corner of Eighth and Washington streets this evening at 9:45 o'clock, and the last car southward bound will leave Piedmont at 9:43 o'clock.

It was thought not expedient to trust the old cable for the Sunday travel, as it was liable to break, and this would leave the visitors at Blair Park in a fix. The new cable will be in readiness to draw the cars tomorrow morning. The cable road has been singularly fortunate for a new road in not having any serious calamities and only such a few short stops.

THE POOLROOMS IN SOCIETY.

Ladies of the Four Hundred Pat Councilmen on the Back.

Mrs. Charles Webb Howard Invites Those on Her Visiting List to Discuss Public Affairs.

The poolrooms are in society!

This must not be considered to mean that Messrs. Whitehead, Schwartz, Kingsley and Killip, arrayed in dress suits and with broad expanses of shirt-bosoms are explaining to decollete matrons and blushing maids the differences between a selling plater and a favorite, or giving learned disquisitions on the relative merits of straight pools and place betting before the Ebell Society. No one but the O'Callahan has ever "got into" Oakland society to that extent. But nevertheless the poolrooms and "our local 400" are now acquainted.

The introduction was accomplished by Mrs. Charles Webb Howard yesterday afternoon at her beautiful home on Alice street. Again, however, it must not be supposed that the bookmakers and the female leaders of Oakland's society speak as they pass by. Quite the contrary. The poolrooms were introduced to society in order that the leaders might properly abhor them.

Neither is it to be presumed that the ladies are about to organize a "praying band" (as was done during the prohibition crusades in some of the cities of the middle West) to camp on the steps of the poolrooms and incidentally to chuck the blackboards, telegraph instruments, tickets and money into the gutters. No, Oakland's society leaders merely met to encourage those whose course they approved and to condemn those of the opposite way of thinking.

Mrs. Howard, thinking that much good might come from an expression of opinion from the ladies on her visiting list, sent out invitations headed "The Uncommon Council," and asking them to meet with her yesterday afternoon. Many of the ladies were somewhat surprised at the invitation, such an afternoon gathering being novel in Oakland's social circles, but a goodly number of those still in the city attended, and the meeting was an interesting one.

After a pleasant and instructive conversation and general discussion of the questions resulting from the coming of the bookmakers to Oakland, it was decided to send notes of commendation to the Councilmen who opposed the licensing of the poolrooms. Beyond this the ladies decided that they would use their individual efforts in a social way to hold up the hands of these Councilmen and give them their support. Beyond this no resolutions or formal memorial was adopted, the ladies agreeing that it would be better to use their influence as individuals rather than as a body.

Other meetings for the discussion of the same subject may be held in the future.

DIETZ'S SIDEWALKS.

Councilman Johnston Will Not Connive at Any Wooden Walks.

Councilman Johnston of the Fifth ward, in which A. C. Dietz's property on Twelfth, Webster, Thirteenth and Harrison streets is situate, said this afternoon that he had a conversation this morning with Mr. Dietz, who is violating the ordinance by repairing old wooden sidewalks instead of laying new sidewalks of cement or bitumen ordered by the Council, and told him plainly that it is useless for him to try to prevent execution of the order to lay proper sidewalks in front of his property. "I shall not help Mr. Dietz in his attempt to evade constructing proper sidewalks," said Mr. Johnston. "He need not count on me. He is my landlord; I pay him rent for his property, and that is the end of our relations."

GOOD NEWS.

Official Survey of the Boulevard.

THE ENGINEERS ARE AT WORK TODAY

First Contract for the Stone Embankment Soon to Be Awarded.

The Official Lines Being Determined in Preparation for Beginning the Work of Filling.

Hurrah! for Oakland. Work on the boulevard has commenced.

City Engineer Morgan, accompanied by Special Engineer Allardt, started in this morning running the preliminary lines.

They will first survey the east side of the lake from the Twelfth-street dam to the charter line.

The figures have already been worked out by those interested in the great work, and have been placed on paper, but the surveys today are the first official ones.

"The calculations are doubtless correct," said the City Engineer as he started out, "but I must verify them in my official capacity."

The bids for the construction of the first section of the big stone embankment will be opened on the last day of this month.

A few days afterwards the Board of Public Works will award the contract.

Then the workmen will be called out, and by the close of the year the first 3000 feet of stonework will be completed.

The rest of the work will quickly follow.

THE MENU FOR SATURDAY.

Hints of the Contents of the Great "Saturday Tribune."

Every issue of the great SATURDAY TRIBUNE contains some special articles that no resident of Alameda county can afford to miss. THE TRIBUNE tomorrow will not be better than every other issue of THE SATURDAY TRIBUNE, but it will include much that is new, much that is interesting, much that is entertaining—and all the news. The paper will consist of twelve pages and eighty-four columns, all full of good matter. Perhaps every article in this great paper will not interest every one, but a strange person is he who will not be interested in something in the contents.

As customary, other fields than strict news are covered by THE SATURDAY TRIBUNE. The literary features are given equal attention with the current record of events. Comment and information both are supplied.

The caustic scribe "San Francisco" will describe the perils of photography to young women of the metropolis, and also mention prominent themes for gossip of the people across the bay, including Joseph Redding's nickel-in-the-slot machine.

The eminent agriculturalist, E. F. Cahill, is not a candidate to be appointed Chief of the Horticultural Department at the World's Fair, but he is an expert on ramie and Walter Maxwell and tomorrow he will spray "the editorial farmers" with a strong ink wash which will remove codlin moth from any brain.

An elaborate article, illustrated by many fine engravings, will tell of the beauties of the Piedmont district, and particularly describe the new pleasure resort, Blair park.

The Meddler in a summer retreat has learned something of the departure of a prominent resident of Oakland.

In the society department will be recorded the goings and the comings of the butterfly tourists of the summer season.

The man who goes to the theater and thinks for other people will have some words about Sullivan, actor, and "professionals."

The New York editor and literateur, E. W. Bok, will relate in THE SATURDAY TRIBUNE how Mary Anderson-Navarro is about to become an author.

THE SATURDAY TRIBUNE also will contain all the local news of the day and the complete telegraphic report of the Associated Press, received in Oakland by THE TRIBUNE only.

IN USE NINE YEARS.

The Steamer Piedmont on the Ways for Repairs.

THE NEWARK WILL PLY IN HER PLACE.

The Substitute Steamer Misses Two Trips Because of a Trouble With the Condensor.

The steamer Piedmont today was taken off of the ferry route from Oakland pier to San Francisco and hauled upon the ways in the West Oakland yards for a thorough overhauling.

The Newark took her place, and on the first trip across the bay something was found to be the matter with the condensor. It took an hour to make the trip, and the 6 o'clock trip from this side and the 7 o'clock trip from San Francisco were abandoned. This made No. 11—the Sacramento and Redding passenger train—and No. 79—the San Jose train—each half an hour late in starting.

The Piedmont will have a thorough overhauling, something that she has not had since she was built. This steamer has been running continuously for nine years, and the total time that she has been laid off during these nine years would not amount to three months.

The Piedmont will be on the ways for nearly six months, and her machinery as well as the woodwork will be repaired and renewed. It will cost $40,000 to put her in good condition.

INSPECTING THE DIVISION.

A. D. Wilder, J. A. Filmore and C. F. Crocker Looking Around.

The general officers of the Southern Pacific Company are making an inspection of the lines under A. D. Wilder's jurisdiction. This morning Division Superintendent A. D. Wilder went up to Sacramento on a special train leaving Oakland pier at 6 o'clock. He met General Superintendent J. A. Fillmore, Vice-President C. F. Crocker and Engineer Hood at Sacramento and they went over the Clear Lake division. They will inspect all of the branch lines that were formerly under the charge of J. B. Wright of Sacramento, which were given to A. D. Wilder's charge about a year ago.

The object of this inspection is to see how the added lines are progressing under the new management, and to see what can be done to improve the service. The business will be examined, and incidentally the extension of the Clear Lake division will be discussed, as business towards Clear Lake is growing immensely.

The San Ramon valley branch was inspected by the same party on Wednesday.

Mr. Wilder's division will be examined from one end to the other as the most important division on the line of the Southern Pacific Company.

Today's Trains.

All incoming trains were on time today. Two outgoing trains were delayed by the trouble on the Newark.

A GREAT SALOON FIGHT.

Alameda Liquor Dealers Will Contest the New Ordinance.

A Pool Formed and a Test Case Will Be Taken Into the Courts and Litigated as Long as Possible.

The saloon keepers of Alameda have not given up all hope yet of continuing in business after July 1st, when the new liquor license ordinance, almost prohibitory in its nature, goes into effect, and have concluded to take decisive measures against its enforcement. They will contest the legality of the ordinance. A meeting of the saloon keepers and brewers will be held next Monday evening at the Central Gardens (George Voges' place), corner of Railroad avenue and Grand street, at which a definite line of action will be decided upon. From what can be learned, it is proposed to assess each saloon keeper who goes into the pool $100 to pay counsel fees. An attorney of the State League of Freedom will be present, and it is said that he has promised to keep the contest two years at least in court. Meanwhile the saloon keepers will keep open as usual and sell their liquor without any license. They make the plea that they are justified in their action of protesting against the ordinance, as the time has not yet arrived when prohibition should be established in Alameda, and this is what the ordinance virtually does.

No doubt the temperance people of Alameda will be greatly surprised when they learn of the proposed action of the liquor dealers. They thought they had won a complete victory, and had nothing else to do but see that the ordinance was properly enforced.

All the saloon keepers, however, will not go into the pool. Nicholas Reinecker has signified his intention of taking out a license, if one is granted to him, and Hadley & Petersan, who keep the saloon at the corner, will do the same. On the whole there promises to be a lively state of affairs in Alameda after July 1st.

Alameda Notes.

R. B. Tappan went today to Auburn to attend to some legal matters.

It is somewhat gratifying to the Alameda people to go to the foot of Park street and sees that work is in progression on the foundation for the bridge piers. The sight renews their hopes that some day the canal will be spanned by a bridge.

H. P. Moreal and family went out to their camp in Moraga valley yesterday.

Miss Louise Moron, a well-known belle of Alameda and a member of Alameda Parlor of Native Daughters, was married at Denver the early part of this month to Alfred W. Bechtel of Watkins, Col.

Judge Byler and Constable Morris did not find hunting as good in Moraga valley as they expected. They say the rabbits are too young, and they will make another attempt to kill some in a few weeks.

William Gately, a young man, a waiter by occupation, was found in a drunken condition at the narrow guage wharf last evening. He had an idea that he was en route to Chicago, and as he was in no condition to take care of himself, he was brought to the City Prison. He pleaded guilty to drunkenness this morning, and was fined $5. He lives in San Francisco.

Joe Fleming, the swimming teacher, while incarcerated in the West End lockup, showed his objection thereto by kicking over some buckets. This morning Officer Brampton swore to a complaint charging him with malicious mischief.

Music on a High Scale.

The Musicians' Union has raised the price to $2 50 per man for each concert performance. This will therefore necessitate the obtaining of $190 a month for the Friday night concerts at City Hall park. Mr. Lehnhardt, who has the list in charge, has already secured promises of $160 a month.

"Now Comes Gill."

Edward Gill has added his protest to the other protests filed with the Council against the supplemental assessment for the opening of Filbert street. His reasons are in the main part those given by the other protestants.

A Plea for Special Watchmen.

The Oakland Preserving Company has petitioned the Board of Police and Fire Commissioners to appoint as special policemen without pay their night and day watchmen, L. A. Steele and R. W. Savage.

Judge Greene Having Once Examined Hickson.

The Judges of the Superior Court are very careful about treading on one another's toes. Wednesday Judge Greene conducted an insane examination and discharged from custody J. H. Hickson. The physicians asserted that the man was not in his right mind, but they did not deem him dangerous to be at large. So he was turned out of jail.

That same night Hickson was picked up by a policeman, and after a struggle he was landed in jail again. Yesterday morning a Deputy Sheriff asked Judge Ellsworth to examine the man and he agreed to do so. Subsequently he learned that Judge Greene had examined the man the day before, and he refused to interfere with a case which had been decided by his colleague. So back to jail went Hickson.

Finally Judge Henshaw came along and he was asked to examine the man and agreed to do so before he knew any of the facts in the case. When he learned that Judge Greene had discharged Hickson the day before he refused to proceed with the examination, so back to jail went Hickson. Judge Greene has gone into the country for a few days, and Hickson is in jail awaiting his return. The officers say the man is insane.

A MYSTERY TO RAILROAD MEN

Why Was the Tender of a Wrecked Engine Not Damaged?

Though Driven Into the Mail Car the Tank Was Hardly Scratched in the Wreck.

The engine that drew the Los Angeles express train when the collision occurred near Port Costa Monday has been brought to the West Oakland yards for repairs. It will cost $1500 to put her in running order once more. The engine was 1008, one of the new straight-stack, extension-front machines and was badly wrecked. The pilot, the headlight, the stack and all of the front work was wrecked. The tender was driven into the mail car, and, strange to say, this was very little damaged. How the tender, after being driven into the mail car, escaped with so little injury is a mystery.

The engine of the gravel train was more badly injured, and was sent to Sacramento for repairs. The cars piled the tender upon the locomotive, wrecking both.

How the Lepers Live.

At the leper settlement of Mokalio, writes Sister Rose Gertrude to *The Ladies' Home Journal*, the time hangs very heavily on the hands of even these ease-loving children of the tropics. Some few, in the first stage of the disease, build cottages, some cultivate taro, tobacco, sugar-cane or other plants in small inclosed patches. In the olden times they distilled strong and harmful liquors, but this is now, happily, forbidden by law. The sea around abounds with all kinds of fish, and the stronger ones pass hours in in this favorite pursuit. There are a number of horses at the settlement, too, and sometimes there are horse-races, the training for which is an amusement to them for weeks beforehand. The women fish or ride, too. As a rule, they are not much given to domestic pursuits, though some still make hats and gorgeous quilts with birds and flowers cut out of colored rags stitched on to white calico. But those who can work are almost disinclined to do so by the utter uselessness of their industry. "We are dying," say they, "why should we waste our time in working to leave good things behind for those who do not care for us?" The Chinese bear off the palm for industry. They plant taro and rice, and establish bread and cake stores, and even make candy for those who have the good fortune to receive money from their friends on the other islands. Of course there are many who from loss of hands or feet are unable to work, and theirs is the saddest lot. They have literally nothing to do but sleep and smoke, and their lives are unutterably dreary.

California Revisited.

E. G. Waite in the May Century.

The old miner, full of cherished memories of that wonderful past, on revisiting the scenes of his early labors sees no winding line of miners by the river marge, with their rattling rockers or long toms; no smoke from campfire or chimney arises from the depths of gorges; cabins are gone; no laughter nor cheery voice comes up from the canyons; no ounce a day is dried by the supper fire. Gone are most of the oaks and pines from the mountain-sides; the beds of the rivers are covered deep with the accumulated debris of years, over which the water, once clear and cold from the melting snows of the Sierra, goes sluggishly, laden with mud, in serpentine windings from bank to bank. On the tableland above, in the chasms made by hydraulic power in the pleiocene drift, the hollow columns of iron that once compressed the water stand rusting away; the monitors lie dismantled like artillery in a captured fortress. All is silence and desolation where once was the roar of water and the noise of busy life. The same red and brown soil is still beneath your feet, the same alteration of ridges and gorges is here, the same skies unflecked by clouds from May to November are overhead; the same pure air is left to breathe in spite of courts and monopolies; a considerable portion of the soil is cultivated; scattered here and there over the mountain slopes are homes surrounded with flowers and fruits—but the early miner sees it all with the sad belief that the glory is gone.

Defendants in the Truett Suits.

The following notice is addressed to all persons affected by the Truett suits:

Your committee appointed June 2, 1891, requests that all persons who have subscribed toward the settlement of the suits make payments to A. C. Henry at the California Bank and Trust Company, 1008 Broadway, *immediately*, as we must close the matter up by the 1st of July.

All those who do not come forward and subscribe and settle by the 1st of July must be omitted from the settlement and left to defend their own suits.

By order of the committee.

PETER THOMSON, Chairman.

His Toes Cut Off.

A puny, white-haired dog stood watching the crowd get on and off the 6 o'clock broad-gauge train at Broadway last night. He was evidently watching for some one, and just as the cars started pulling out he thought he saw the object of his quest, and he attempted to board the train. The steps were too high, though, and the little dog slipped and fell under the wheels. There was a loud yelp, and the dog went whining down the street with the toes of his right foot cut completely off.

An Expensive Change.

The papers are being prepared for the opening of Chestnut street at the different points of obstacles between Fifth and Twelfth streets. There are six or eight pieces of property affected and three residences to be removed, among them being the fine house of Charles D. Havens, the insurance man of San Francisco.

Sick—Pleasure Seeking—Married.

The criminal department of the City Hall looks almost deserted. Chief of Police Tompkins is still sick in bed, City Attorney Johnson is away on vacation. Police Recorder Sam Mitchell is out on the plains, and Prosecuting Attorney Lin S. Church is on his honeymoon.

THE GIFT FOR THE CHURCH.

Father McSweeney Annoyed at Untruths in Untrustworthy Papers.

Rev. Father McSweeney of the Church of St. Francis de Sales, said this afternoon in relation to the donation of $75,000 for the new church building: "I saw it mentioned in the *Chronicle* this morning that Mr. Canning had donated the money from the profit he made on the sale of some property in San Francisco. I cannot see what right a newspaper has to make such absurd and wholly untrustworthy statements. There is not a shadow of truth in them. I am bound by a solemn promise not to make known the name of the donor of the money, and I must respect his wishes. I have tried to persuade him on several different occasions to announce himself, as it is something to be really proud of. In fact, I do not know when such a generous gift has ever been made before, but as long as the donor chooses to remain silent, I am bound to respect his wishes. I can tell you though that Mr. and Mrs. Canning positively had nothing to do with it, and it is only that they may be saved future notoriety that I make this statement I know they must feel not a little chagrined at having themselves placed in a false light before the public, and you will not only be doing me a service, but them as well, when you announce that the story is absolutely without truth. As I said before, I have seen many references in the papers to Mr. and Mrs. Canning in connection with this matter and I cannot see how a paper can make such statements without first ascertaining whether they are true or not. Mr. Canning had nothing to do with the donation, but I must refuse to say who the generous person was until I am given permission to do so."

SOME BIG BUILDINGS.

Business Blocks Which Will Make Work for the Building Trades.

A great deal of activity in all building trades in this city is certain in the near future. The work of excavating for the foundation of the new theater building at the corner of Fourteenth street and Broadway is now progressing with vigor. It is expected that the work of tearing down the old buildings which now cumber the lot will begin about July 6th.

Robert Smilie, the contractor and millman, is erecting a three-story building at the corner of Jefferson and Thirteenth street. This building is to be run as an ultra-fashionable boarding house after the manner of "the Pleasanton" in San Francisco.

The proprietors of the Cape Ann Bakery will at once begin the work of excavating for a large building at the corner of Eleventh and Clay streets.

C. & A. Nordhausen have awarded the contract for excavating their lot at the corner of Seventeenth street and San Pablo avenue. They will erect there a substantial building of brick and iron, three stories in height.

Work on V. D. Moody's building on Ninth street, west of Washington, is being vigorously pushed.

DIEVES TAKES A TUMBLE.

He Falls a Distance of Thirty Feet and Narrowly Escapes Death.

Joseph A. Dieves, son of Joseph Dieves, who conducts a wayside house on the San Leandro road, had a narrow escape from death last evening. He and some of his companions were playing tallyho, and Joe in order to hide himself climbed to the top of a gum tree. He lost his balance and fell a distance of thirty feet. When within ten feet of the ground Joe struck a branch of the tree, which broke his fall. Dieves was badly shaken up from the fall, and will feel the effects from it for a long time.

He Who Runs May Read.

In spite of declarations to the contrary, it is possible to both read and write with comfort while traveling if one knows how, says the *Ladies' Home Journal*. Pains in the head after reading in the cars are due to an unusual strain upon the muscles of the eye, its focus being changed almost incessantly; but with an occasional rest the muscles will not find the work too hard. So try the plan of reading for *ten* minutes, and then for *five* minutes reviewing what you have read. But if, meanwhile, you wish to look out of the window let it be the one on the other side of the car, for to look out of the one next you will require quick focal changes as tiring to the eye as reading.

Residents of Old Tuolumne.

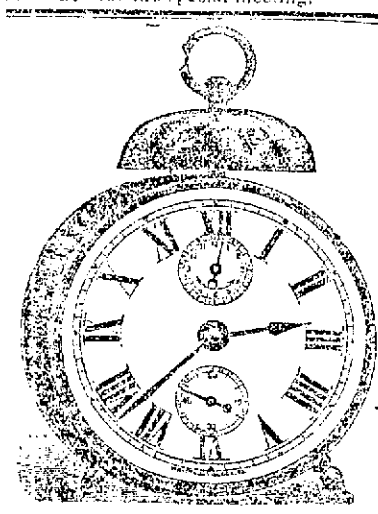

The twenty-fourth reunion of residents of old Tuolumne will be held at Shell Mound Park tomorrow. F. D Nicol of Stockton will deliver the oration. A unique feature will be voting by the ladies present for the most popular, the ugliest and the handsomest gentlemen present. The oldest settler, male and female, and the first-born of each sex of "Old Tuolumne" will be presented with a handsome silver souvenir.

Nearly a Bad Accident.

Deputy City License Collector C. F. Cole had a narrow escape this afternoon. He drives a thoroughbred horse, and at the corner of Eighth and Washington streets the animal became restive, reared and then swerved and struck Mr. Cole heavily on the head, dazing him for a moment. The doughty license manipulator held on like grim death to the reins, though, and the horse was not permitted to run.

Progress of the Legal Proceedings Instituted by Them—Dr. S. H. Hall Wants His Bail Reduced.

SAN FRANCISCO, June 11.—The application of Charles Broad, late clerk of the corporation yard of the Fire Department, for a writ of mandate under which to review the proceedings of the Board of Fire Commissioners, who recently dismissed him for insubordination, came before Judge Wallace this morning and was taken under advisement.

The suit of George W. Faylor against Senators Banks Williams and other members of the late Legislature to recover commissions for certain alleged services rendered as a lobbyist, was also before Judge Wallace, and a motion requiring a further bill of particulars was granted.

The Supreme Court sitting in banc this morning heard the application of Dr. S. H. Hall for a reduction of bail, and took the matter under advisement. Hall is charged with having caused the death of Ida Shattuck by a criminal operation.

RAIN AND CROPS.

Secretary Lelong Says the Prune Crop Will Be Good.

SAN FRANCISCO, June 19.—A light rain fell at intervals today.

Secretary Lelong of the State Board of Horticulture, denies the reports printed in same Eastern papers that the California prune crop will be a failure. He states the reports received by him indicate a first-class crop in nearly all sections of the State.

Further notice will be given concerning the movements of the association and there is no doubt that with judicious management the hall can be bought and paid for at no distant day.

Public School Exercises.

The closing exercises of the Centerville public school were held at the schoolhouse Friday, June 12th, and showed in a marked degree the thorough progress made during the past term.

A large United States flag draped one end of the room and was festooned with roses and branches of the pepper tree. A profusion of flowers decorated the room and the organ, at which Miss Lena Miller officiated. The following programme was carried out:

Song, by the school; concert recitation, by Miss Riley's class; "Lullaby," Carrie Brandon; "Three Little Bugs," Miss Riley's class; song, "Owl and the Pussy Cat"; song, "Welcome Spring"; recitation, "Grandpa's Spectacles," Blanche Blacow; recitation, "Boys' Rights," Charlie Cummings; recitation, "Charcoal Man," Lena Marshall; song, Miss Brown's class; recitation, "The Foxes," Miss Brown's class; an interesting lecture on "Corea and the Coreans," by General Foote, at one time Consul at that place; recitation, "The Building of the Ship," by Arthur Yates; recitation, "Angels of Buena Vista," by Frances Cable; recitation, "The Snake," by Amy Gregory; recitation, by Florence Chadbourne; recitation, "Midnight Mass"; "Golden Songs," by the school, closing the entertainment, which was creditable to both teachers and pupils and was greatly enjoyed by the audience.

A Zoological Entertainment.

There will be a zoological entertainment and Japanese tea held by the ladies of the Centerville Presbyterian Church at the Town Hall Wednesday evening, June 24th. Twenty animals (?) are in training for the event. There will be social and instrumental music to charm and soothe the savage. Ladies in Japanese costume will serve refreshments. Japanese cups and saucers will be given as souvenirs.

The Merry Workers.

The Merry Workers met at the Gregory House on Saturday evening, June 13th. An election of officers for the ensuing quarter was made and quotations recited by all the members. A charming solo was then given by Miss Graham. Miss Lottie Trefy read a most interesting essay, delineating with skill the wit and humor of the poet Holmes. A recitation was then given by Fred Carothers, "Grandmother's Story." A poem of "What Katy Did" was read by Amy Gregory. Three new members were admitted, and a closing speech by the retiring president, Dan Crosby, was enthusiastically received. The meeting closed with the usual vote of thanks to the hostess and an appointment to meet at the home of the Misses Eggers. The subject will be "Sir Walter Scott."

Contrary to the usual custom of the society, the rest of the evening was spent in dancing. The large dining-room of the hotel had been prettily decorated with palms, and pots of flowers occupied every available place. From the chandeliers were suspended long branches of the graceful pepper tree. The grand march began with Miss Graham at the piano, and soon almost the entire party were dancing with admirable vigor. The music alternated between Miss Graham and Miss Hussey at the piano, Mr. Searles of San Francisco violinist, and Mr. Peterson with concertina.

The rythmic tread of the dancers continued till a late hour, when refreshments were served by the generous hostess, consisting of delicious cake and ice-cream. There were about ninety persons in attendance.

THE PIEDMONT BATHS.

They Will Be Open Next Week to the Public.

After several unavoidable delays and postponements, the Piedmont baths will be opened to the public next week. The occasion will be one of considerable interest to the public, as the baths are the finest in the United States, and the big tub, the largest one under cover in the world. Those who have not visited the baths will be greatly surprised at their elegance on the opening evening, when the beauty, wealth and brains of Oakland will be present. The Piedmont Cable Company will carry the crowd right to the door, just as the People's Express Company, on Tenth street, between Broadway and Franklin streets, will transfer your trunks, check your baggage at your house, or remove your furniture with their giant trucks.

A Fine Testimonial.

OAKLAND, March 17th, 1891.

Having suffered for a long time from a peculiar stomach trouble, originally caused from the use of tobacco. I tried many physicians, but found no permanent relief until I consulted Dr. Bluett, 1059 Broadway, Oakland, and under whose treatment I have entirely recovered. I would urge upon all sufferers from indigestion and dyspepsia to apply to him at once, and I am satisfied that you will never regret it. I consider the doctor permanently qualified to treat troubles of this nature.

FRIDAY.....JUNE 19, 1891.

THE Alameda policeman who wanted to shoot the ghost should know that it is against the rules of the game to kick the corpse.

THERE is every prospect that a majority of the people of Fruit Vale will petition for annexation to Oakland. They want sewers and street improvements.

COUNCILMAN MACDONALD should receive encouragement from every one in his efforts to secure the bituminizing of Seventh street, between Washington street and Broadway.

THE J. Dewing book concern of San Francisco is in financial trouble. It deserves no pity. Any book firm which permitted the royal, red-haired O'Callahan to pass through the State without securing his services does not deserve success.

THE Hotel Vendome at San Jose was largely built by popular stock subscriptions. It is a success. Couldn't the same scheme be worked in Oakland to good advantage? It has the merit of interesting many men in the success of the enterprise, and increases the local pride in the institution.

A SACRAMENTO hoodlum the other day thought it would be a fine joke to annoy and disturb a Folsom school, but the plucky young woman in charge took him by the ear and with the help of some of the boys threw him out. If they had ducked him in the American river he would have been the better for his unexpected bath.

BROTHER SULLIVAN, the loud chrysanthemum of the "roped arena," the fiery star of the drama of our "mudders," will not allow Paddy Slavin, the illustrious crackerjaw from beyond the seas, to tread on the tail of his coat lest the neglected defiance interfere with the box-office receipts. He has improved on Shakespeare's notion, for while grim-visaged war assumes his wrinkled front he still capers nimbly to the lascivious pleasing of the lute, for he needs them both in his business.

THE Board of Public Works should look into the methods of sweeping the streets employed in some of the older cities. How would it do to try the plan of hiring boys to sweep up the filth, depositing it in corner receptacles, which could be emptied every night? Then, by enforcing strictly the ordinance against throwing papers and other litter in the gutters the bituminized streets could be kept absolutely clean. This plan is a success in many other cities. It has the additional merit of providing employment for the boys.

THE profits of market gardening in California are illustrated by the Pomona *Progress*, which says "Hung Lee came to this valley two years ago this month and rented an acre of land for embarking as a gardener. He had about $75 at the time. He has worked like a slave and saved like a miser. Last week he bought ten acres of Spadra land for $1300, and has over $500 more on deposit in a Los Angeles bank." The same thing is true of the market gardens of Alameda county, with this important difference, that the money is made by thrifty Portuguese and Italians.

THERE is a good deal of talk and some condemnation of Controller Colgan's purpose to test the constitutionality of the State appropriation for the World's Fair exhibit, but in fact the Controller is simply a ministerial officer in this regard and is without discretion. The question at issue is one that cannot be avoided, and has been discussed for months in the State press. We believe and hope that the decision will be favorable to the appropriation, and the sooner it is tested the better. In this view the Controller will do the State a service by pressing the suit.

ONE of the most prominent of Oakland's merchants said the other day: "I know that a first-class hotel of 300 or 400 rooms, with prices from $3 to $5 per day, would pay in Oakland. It would be filled nearly all the time with Eastern visitors. I have traveled about a great deal in the last three years, and I have never made the westward overland trip that I could not have brought from three to twenty visitors to Oakland if we had had a first-class hotel. When I described Oakland's climate, streets, drives and flowers, all were eager to make this city their headquarters during their stay on the coast. But when they asked about hotels I was compelled to say we had nothing more than large boarding houses. From my experience I honestly believe that a majority of the visitors to central and northern California would rather make Oakland their abiding place than San Francisco if we had a good hotel. And these people are out here to spend money." This is something for capitalists to think over.

An Interesting Election.

While people are watching the coming Ohio election because of the great national issues involved they lose sight of the fact that New York too will have an election for Governor this fall, which will be a great fight, and we believe quite evenly matched. There too the protective tariff will be made the leading issue and the Republicans are confident that the large manufacturing interests of the State and the army of men dependent on the maintenance of those interests will bring about a verdict favorable to the Republicans. In this regard Thomas C. Platt, one of the Republican leaders, says.

New York is a Republican State on a national basis. Of that I am convinced. Our State has too large manufacturing interests to be anything else. The same reasons should make New York surely Republican this fall, and I believe they will. The Republican party, since it regained control of the nation in March, 1889, has shown conclusively that it is the party under whose administration the country prospers, extends its commerce, stimulates its manufactures, and becomes respected by foreign nations all over the world. With able and popular candidates, and there is a determination on the part of the party leaders that the ticket shall be strong in every part, and with a patriotic and truly American platform, as the Republican platform will always be, I confidently expect to see the State carried by us in November. All the signs of the time point that way.

It is possible that Mr. Platt may be unduly confident as regards the State election. New York has always been a difficult State for the Republicans on local issues. In New York city the organization of Tammany is so perfect and that of the Republicans so inadequate that the Democrats generally have things their own way. It was said some time ago that Governor Hill would seek re-election notwithstanding the fact that he is now Senator from the State as well as Governor. He fears that should he go to Washington he would lose control of the Tammany machine, and consequently his chance of the nomination for President next year. In fact it was with this object that the Mugwumps were so anxious that he should accept the Senatorial office and make the way clear for Cleveland. Nevertheless it seems now that he has abandoned any idea he may have had of trying to hold all the important offices in the gift of the State, and it is likely that Roswell P. Flower will be the nominee. The choice of the Republicans is so far an open question.

PROPERTY-OWNERS on Seventh street again have been notified to lay cement or bituminous rock sidewalks in front of their holdings. This time the notices must be followed up by sharp and speedy action. The Council will temporize no longer. The sidewalks must be laid. Webster street property-owners will be similarly treated. The owners of property on these exhibition streets of the city owe it to Oakland to keep their holdings properly improved.

NOW that Oakland has subscribed a generous bonus for the theater, Mr. Macdonough should see that Oakland architects, contractors, artisans and laborers do the work on the building, and that Oakland firms furnish the materials for its construction. In this way the building of the theater will be a direct benefit to the citizens who so generously subscribed the bonus.

IT will not do for Eden township to be left behind by the High School procession. It should fall in with Murray and Washington, the leaders in this useful and progressive movement. Alameda county has sufficient population and wealth to support six high schools.

THE authorities should deal with A. C. Dietz summarily. He is not complying with the ordinance relating to sidewalks, but is replacing old wooden ones with other wooden ones. Councilman Johnston sees this going on under his very nose. Will he act?

ALAMEDA also is to have a new theater. So is Berkeley. The spirit of activity pervades the entire eastern shore of the bay. And yet the *Examiner* had the effrontery to suggest our annexation to sleepy San Francisco.

VALUABLE flowering plants were stolen from a garden at the corner of Fourteenth and Jefferson streets. The Board of Public Works is never troubled by the theft of flowers from its gardens—the city parks.

An Instructive Liar.

McCloud River Pioneer.

The fog was so thick Thursday that millions of wild geese became bewildered and lit in Bartle's meadow, where they were caught by the sackful. The fog was so thick a man's hand could not be seen before his face, but everybody caught large numbers of geese, being attracted to them by the panting of the exhausted birds. By evening a cold snap occurred, and the next morning the geese were found in vast quantities, their feet frozen to fences, trees, etc., on which the birds had lit. Jerome Bartle and Uncle George Cox estimated they had nine miles of rail fencing broken down by the weight of the geese.

A TORPEDO EXPLOSION.

Serious Injury to Miss Henderson of Willow Street.

Miss Fannie Henderson of 1067 Willow street has for some time past been an employe at the toy Torpedo Works at the corner of Bay and First streets, West Oakland. Yesterday morning she was at work there mixing some dynamite and silver in a cup when the compound suddenly exploded and inflicted serious injuries on her. She was thrown heavily to the ground and her hair took fire, burning completely to the scalp. Her hands were also badly lacerated, but the worst injuries were to her head, her face being blackened and burnt and her eyes covered with shellac.

She was removed to her residence at once and medical aid summoned. She suffered great pain during the night and since the disaster, has been unable to see. Whether or not the loss of sight will be permanent the doctors are unable yet to determine. Miss Henderson is 19 years of age.

The action of the Postmaster of El Paso in refusing to allow the El Paso *Times* to be transmitted through the mail simply because it contained as news an Associated Press dispatch giving a synopsis of the opinion of the Supreme Court of Louisiana compelling the Secretary of State to submit at the next election a constitutional amendment passed by the last General Assembly extending the charter of the Louisiana State Lottery twenty-five years, is deserving of the severest condemnation and censure, not only because of the injustice of such an arbitrary proceeding, but upon grounds of public policy. The business manager of the *Times* very properly had this Postmaster, who bears the historic name of Smith, arrested for unlawfully detaining mail matter, and he was bound over to appear before a commissioner for trial, but the punishment whatever it will be, even if ever meted out after many months of delay, will not fit the crime. Nothing short of absolute and immediate official decapitation, with whatever other punishment the law provides, would be proper for such officious intermeddling with the mails. If the United States mail is to be subjected to such scrutiny and exclusion by the Postmaster at El Paso, the Postmasters at the various other cities, towns, villages, hamlets and crossroads in the State and throughout the United States have the same right, power and authority, and are, of course, at liberty to do just as the Postmaster at El Paso has done. If the Postmaster can stop the transmission of a newspaper because it has in it the decision of a court in regard to the Louisiana Lottery, he can also stop it because it mentions the name of the lottery in it, and if he can do this he can stop the *Post*, because it incidentally mentions the name of the Louisiana Lottery Company in criticising his official conduct. If he can do this, however, he can override the strongest bulwark of the liberties of the people and violate one of the plainest provisions in the Constitution of the United States, thereby completely throttling the press.

Upon the grounds of public policy the United States Government should not tolerate such tampering with the mail. It throws open the doors to fraud and, if permitted, will tend to make the service inefficient and unreliable. Why not detain a letter suspected of containing a lottery advertisement, and why not open it to ascertain if the detention is legal? If its contents are legal why then of course it might be permitted to continue on its journey.

The great wrong done newspaper publishers, however, is to allow a Postmaster to authoritatively detain mail matter which, in his opinion, is illegal. He ought not to be permitted to do this. If the publisher has committed any wrong he can be held responsible and be made to suffer the penalty; but a Postmaster may detain an entire edition of a newspaper, entailing a heavy loss upon the publisher, and yet when the matter comes to a final trial the court may decide that the papers are mailable. The damage has then been done the publisher, and there seems to be no adequate remedy for him. Suppose the politics of a newspaper are objectionable to the Postmasters generally, and throughout the State they choose to hold a paper because in their opinion it is not mailable, it would thus put it within the power of the Postal Department to stop the circulation of a newspaper and bankrupt it, leaving the publisher with a lot of suits against Postmasters as assets. Such a state of affairs leaves newspaper publishers without adequate remedy, and to allow such arbitrary conduct on the part of officious Postmasters is contrary to the institutions of this Government, and a violation of the legal maxim that each wrong has its adequate remedy.—*Houston (Tex.) Post, May 16.*

— SOMETHING NEW —
TO PURCHASERS OF
FRUIT VALE LANDS.

IN THE OFFERING FOR SALE OF A TRACT of land in small subdivisions, on easy terms, by speculators or operators in real estate, it is customarily deemed necessary that there should be a margin of nearly 100 per cent between the value of the tract as a whole and that to be realized in lots, in order to cover expenses of sale, commission, interest on capital, and a reasonable net profit to the speculator. I have a plot of land containing nearly twenty acres, desirably situated at the terminus of the **Highland Park and also of the new Fruit Vale Avenue Railroads**, which I would be willing to sell for $20,000 as an entirety. The streets are graded. Plank sidewalk laid from the railroad and throughout the tract. This property is so situated that it could be subdivided into lots of 50 foot frontage and sold at a handsome advance over the price named if purchasers desire. If a syndicate of buyers be formed to take up the entire tract within a short time, I propose to offer the property in Twenty Large Subdivisions of about an Acre—each subdivision having a street frontage of 200 to 300 feet—on the following terms: Price of each of the twenty subdivisions:

$1000—ONE-QUARTER CASH—$1000

Subscriptions will be taken from proposed purchasers—a deposit being made at time of subscription of $100 for each plot; within 30 days, or as soon as fifteen subscriptions have been made, $150 more must be paid; then subscribers to make their selections, subscriber No. 1 having first choice, No. 2 the second choice, and so on in numerical order. There is not a single plot in the tract that is not well worth the price paid—many of them are worth very much more By the plan indicated each purchaser is independent of all others, and those who subscribe early have a great advantage of first choice. A Certificate of Title by approved searchers will be furnished each purchaser, without expense, if desired. Deed and mortgage prepared without charge. To each purchaser who may erect a dwelling on his lot within a specified time, a **Free Pass Over the Street Railroads** to either Fruit Vale or Brooklyn station for five years will be furnished. Map showing location and further information can be had at the office of the undersigned. Intending purchasers will please call early, as the proposition is an advantageous one for buyers and is likely to be taken up promptly.

BERKELEY BUSINESS

The Necessity for a Freight Office and Agent.

RAPID BUILDING OF A STREET ROAD

The New Railroad to Peralta Park to Be Constructed as Rapidly as a Main Line Was Built.

The freight business at East Berkeley is increasing very rapidly and to such an extent that the local ticket agents are unable to attend to it, as they have not the room to accommodate the freight. Sooner or later a regular freight office will have to be established at Berkeley station, and it is rumored that the general officers of the railroad company are thinking seriously of making the arrangements this summer.

The Peralta Park branch of the Claremont, University and Ferries Railroad will be commenced as soon as the materials arrive here from San Francisco, which will be at a date not longer than ten days distant. The company intends to build the line in the same rapid manner in which the main line was built, and it is only a matter of a very few weeks before the Peralta Park line will be in operation.

Yesterday forenoon as the 11 o'clock train was leaving Brooklyn station Frank Weatherbee, a resident of Oak street, was standing on the platform with his right hand against the door. A large number of owners of property fronting on Twelfth street are indignant about the petition which was circulated with success for paving with bitumen the roadway of that street. They say it is well enough for business property-owners, but for residence owners the cost would be too high.

R. W. GORRILL'S CONTRACT.

Building the Great Dam in the Tuolumne River.

The contract to R. W. Gorrill of this city for the construction of the great dam over the Tuolumne River was signed yesterday at Modesto. The amount the contractor will receive is about $350,000. The dam to be built will be located about two miles to the northeast of La Grange, and at that point a high bluff runs down to the river. From this bluff will be taken the rock. The dam is to be ninety-six feet thick at the base and twenty feet at the top. The dam will be built of solid rubble masonry. About a year ago bids were advertised for under the Wright irrigation law, but the commissioners of the district thought the price too high, and made no award. The back water caused by the dam will flow into two canals, one on the Turlock side of the river and the other on the Modesto side. These canals are now in course of construction, and when finished will supply water to some of the finest land in the San Joaquin valley. In the district Turlock is represented by 176,000 acres and Modesto by 198,000. It is estimated that the work, with favorable weather, will be completed in six months.

FOR THE WORLD'S FAIR.

Selling Certificates of Membership in the Alameda County Association.

The first order for certificates is 5000, and 400 copies were received yesterday by T. W. Jeffress, the secretary of the association. The certificates were designed by Mr. Jeffress and the lithograph plates were made from his sketches.

In the center is the certificate of membership and around the border by handsome pictures are represented the industries of Alameda county—horticulture, viticulture, agriculture, a factory, a model home, a rock pulverizer preparing macadam for the roadways, a church and a schoolhouse. The lower part of the certificate shows a view of the city of Oakland.

Mr. King, formerly prominent in the management of the California & Nevada Railway, has been engaged by Secretary Jeffress to canvass for membership in the association.

Admissions of Negligence by Trainmen.

THE CAUSE OF THE PORT COSTA DISASTER

Conductor Collins and Engineer Moore Frankly Acknowledge Their Error and Are Re-Arrested.

A Contra Costa Coroner's jury is a wonderful body. The citizens who composed the Coroner's jury that sat in the inquest into the cause of the wreck at Port Costa on Monday have undoubtedly mistaken their calling. They were never, in the eternal fitness of things, intended for obscure coroner's jurors from an insignificant county. They should run a London funny paper.

This jury was of an inquiring turn of mind, and this turn of mind manifested itself in the most startling questions.

"Does your mind ever take excursions?" asked one juror of Engineer Moore.

"Do you know a passenger train from one made up of freight cars?" asked another whose railroad experience was probably confined to an annual trip to "the city."

After three or four hours of this kind of questioning, the jury brought in the following verdict:

We, the undersigned jurors, summoned by the Coroner of Contra Costa county to inquire into the cause of the death of William J. Jordan, do find that he is a native of California, aged 24 years, and further find that he came to his death by gross negligence on the part of Conductor Collins and Engineer Moore, on special gravel train of Southern Pacific Company, on June 15, 1891, at Port Costa, in the county of Contra Costa. Signed: W. H. Eckley (foreman), S. S. Howland, Daniel Barrett, John J. McCusker, A. D. Smith, John Twomey, James Carrol, William Chapman, Paul Beda, William Young.

The trainmen of the gravel train, except poor Jordan, the brakeman who was killed, were present at the inquest, in spite of fears that they would take advantage of the vagaries of Contra Costa justice and jump their insufficient bonds rather than face Coroner Currey and one of his juries. Each man told a straightforward story and as a result Conductor Collins and Engineer Moore were arrested for manslaughter upon the close of the inquest.

Engineer Moore said that he was working by the side of his engine and that he heard a train go by, which he thought was the Los Angeles Express. He got up on his engine and whistled for a signal and was signaled to go ahead by both the conductor and the rear brakeman. He said that he had received a message from Yardmaster Cameron about spilling gravel in the yard, and that this had made him forget everything else. He said that the wreck occurred through the carelessness of the conductor and himself.

Conductor Collins told the same story. He said that he knew he must meet the Los Angeles Express here and that he forgot all about it and gave the signal to Engineer Moore to go ahead.

Various other officials told their stories and the jury devoted some more time trying to discover what was meant by the rule on the time cards that "trains must run with great care through the limits of the yards, expecting to find the main line occupied." The wreck occured near the Port Costa yards, and they considered that this rule meant that the Los Angeles train should be running on some slow time. Division Superintendent Wilder told them very positively that this had nothing to do with the case.

The conduct of both Engineer Moore and Conductor Collins on the stand was frank, and even under the senseless examination of the jury they maintained a courteous demeanor.

While the inquest was being held the funeral of C. H. Spurgeon was taking place in Santa Ana. It was one of the largest funerals ever held there.

Coroner Currey is still fuming over the action of Coroner Evers in sending young Spurgeon's body to Santa Ana. Coroner Evers says "let him fume."

COLLINS AND MOORE.

They Are in Custody and Keenly Feel Their Distress.

(SPECIAL TO THE TRIBUNE.)

MARTINEZ, June 19.—Conductor Collins and Engineer Moore were taken in custody by the Sheriff last night, as soon as the inquest was over, and were lodged in the County Jail, pending examination.

Neither man showed any desire to leave or to try to escape. Each seems to feel his position very keenly, and they make no effort to deny their negligence. Each says that he forgot all about train 18. There is a great deal of sympathy for both, particularly for Moore, who is particularly cut up.

At the inquest yesterday neither of the men would have anything to say to those around the place where the inquest was being held. They wandered off by themselves and most of the time stood on the wharf looking into the water. No one disturbed them, for they seemed to feel their position very deeply.

Moore tried to read a newspaper while he was waiting to be called, but his hand trembled so that he could not see a line. On the stand his feelings were so intense that he crushed a clay pipe that he held in his hands.

WORK OF THE FINEST.

The Motley Collection in the Police Court Today.

A frowsy-headed man who wore a piece of string for suspenders stood up in the Police Court this morning and responded to the name of Fred Linder, charged with drunkenness. He bobbed his head up and down a couple of times affirmatively in response and was sent to the two-meal-a-day department until Monday.

Cunningham, O'Neil and Swanson, three men arraigned on the same charge also departed with similar sentences.

Richard Hyland, Walter Reeves, Jesse Case, Lewis Miller and Charles Taylor, the five youths found sleeping in a scow and charged with vagrancy, pleaded guilty and will be sentenced tomorrow.

Michael Calusach, one of the restaurant men arrested for selling liquor without a license, had his case continued to July 20th.

George Hall, Barney O'Brien, Sam Morris, John Thompson and Fletcher Howard, five men arrested on complaint of Daniel Brannan of East Oakland for loitering about his place, were discharged, he being unable to identify them.

Ann Haley, of Filbert street, who is accused of hitting her next door neighbor, Gallagher, with a bootjack, was arraigned for battery and pleaded not guilty. Her trial was set for the 25th inst. She wanted a cross complaint for Gallagher, but it was not issued, as it was desired to see how the other case comes out.

DIETZ'S SIDEWALKS.

"The Improver" Now Going to Unnecessary Expense.

Superintendent of Streets Wall explained to a TRIBUNE man the status of the trouble regarding the laying of wooden sidewalks in front of property of A. C. Dietz.

"On the 3d of the present month," he said, "Mr. Dietz was given thirty days notice to lay either cement or bitumen sidewalks in front of his property. Instead of doing this, though, he is repairing the present wooden ones. Now, as far as that is concerned he can do so if he likes, but at the end of the thirty days given him by the Council he will have to tear up the repaired wooden sidewalks. He is therefore going to unnecessary expense. At present, you see, I have no authority in the matter, it is all in the hands of the Council.

ROOM TO BREATHE IN.

Where Every Man Can Have a Garden Around His House.

Property Which Is Sure to Double or Even Quadruple in Value Within the Next Year or Two.

Tomorrow afternoon will see a big crowd at the real estate office of W. J. Dingee on Eighth street, between Washington street and Broadway. In the crowd will be men and women with money in their pockets and a fixed purpose in their heads. These will be home-seekers.

From his perch a quick-tongued auctioneer will make the first offering of property on the line of the projected electric road to Haywards. The forty-two lots in the S. Levi Sr. tract will be knocked off to the best bidders. These lots range in size from half an acre to two acres. Many of them front on the avenue which runs from the county road to Mills Seminary. This avenue is sewered, graded and has a Contra Costa water main in it. So all the tract has sewerage facilities, and water can be piped to every lot at little expense.

In seven minutes an ordinary walker can reach Seminary station on the railroad. Trains arrive and leave from this station at the most convenient hours for people doing business in Oakland or San Francisco. This accessibility and the size of the lots makes it possible for a man to enjoy all the delights of a rural home, at the same time he indulges in the luxuries of city life. So there is a lively demand for the villa tracts to be offered tomorrow.

But the great attraction of the property is that it is on the line of the electric road which is soon to be built to Haywards. Just as soon as this road is completed the property will probably be worth three or four times what it is now. Hence this first offering is particularly alluring from a speculative standpoint, and there would be no trouble in disposing of twice as many lots at the sale.

Another of Pulchsen's Dupes.

Louis Peterson, a butcher of this city, is one of the victims of the oily-tongued Gustave Pulchsen, who recently decamped from San Francisco. Peterson sold his business for $2700, which he turned over to Pulchsen for an interest in his tea store, and a few days later the swindler disappeared, taking with him over $10,000 belonging to people he had duped.

NOT JAMES CANNING.

The Stupid Error of Papers That Print False News.

A POSITIVE DENIAL FROM MRS. CANNING.

The Name of the Generous Person Who Gave $75,000 for a New Church Building Still a Mystery.

Mrs. James Canning made a positive denial to a TRIBUNE reporter today of a story printed in an evening contemporary and copied without confirmation by several of the morning papers to the effect that Mr. Canning is the donor of $75,000 for the new building of St. Francis de Sales Church.

"You must excuse me if I appear provoked," said she, "but the way the papers make use of our names in regard to that church donation is perfectly disgusting. I don't see why they want to be continually publishing such things when there is not one bit of truth in them. I was very much disgusted with what I read in a paper of last evening, because there is not one single word of truth in the whole article in so far as it relates to Mr. Canning or myself. Mr. Canning never held a mortgage on any property in San Francisco and he never sold any San Francisco property for $100,000. Nor any other sum. All the property he ever owned in San Francisco he owns yet and has not thought of selling it, and if you want to know who donated the $75,000 to build a new church in Father McSweeney's parish, you will have to ask Father McSweeney or Archbishop Riordan, for I know nothing about it, neither does Mr. Canning, and why these newspapers want to insist on it I do not know."

"Then I am to understand neither you nor Mr. Canning gave that $75,000?"

"We know nothing about it whatever, and did not give it, and I suppose nobody will know until Archbishop Riordan or Father McSweeney chooses to tell. One paper said that the architect and builder had given out the information that Mr. Canning had donated the money, and if they did they were greatly mistaken. That paper also says Mr. Canning is very sick and bed-ridden. That is perfectly absurd. It is true Mr. Canning is not well, but he is able to be about, and although a little sick he is far from being bed-ridden. I don't like the way the papers have used our names and several times I have started up town to deny the stories, but thought it would do no good. No, we did not give the donation."

In the meantime excavations are being made for the new Church of St. Francis de Sales, and still the question:

"Who gave the $75,000?"

THE LILJEGREN BOY.

Death of the Son of the Swedish Minister and His Wife.

Troubles have not come singly to Mrs. Liljegren, the wife of the Rev. F. W. Liljegren, who is suing her husband for a divorce on the ground of infidelity. She is endeavoring to defend her divorce suit and at the same time pay a little attention to her home affairs. For two months she has watched at the bedside of her nine-year-old boy, who was suffering from cerebro spinal meningitis. She never left his bedside.

Last Wednesday the boy died and the mother is heartbroken, because she was wrapped up in the little fellow. It is only recently that she stated that the child was all she had to live for. Before the Superior Court is now pending a motion in the part of the wife for alimony for herself and little son, the only issue of her union with the minister.

The Dewing Company Embarrassed.†

The J. Dewing Company, book publishers and dealers in San Francisco, is in financial straits and offers to pay creditors 50 cents on the dollar. The offer probably will be accepted. The Dewing Company's liabilities are between $170,000 and $180,000, of which $60,000 is secured. Its assets are valued at $120,000, of which about $60,000 is pledged for money borrowed. Its indebtedness in San Francisco is almost entirely for money borrowed, while the remainder, owing in the East, is for merchandise. The principal creditors in San Francisco are reported to be H. G. Fiske, father-in-law of James Dewing, Wells, Fargo & Co.'s bank and the Sather Banking Company.

A Special Council Meeting.

There will probably be a special meeting of the Council on Wednesday next. Several important matters are to be transacted, among them being the allowing of salary warrants, for this was forgotten by the Council on Monday last. Then there is the allowing of the money for the Fifteenth street engine house and a number of street matters.

The call has not yet been issued but doubtless will be before the week is out.

Mitchell, the Lion-killer.

Bailiff Sam Mitchell of the Police Court, who has been passing his vacation touring on the northern limits of the city, has been heard from, and will be back for duty tomorrow. Rumor has it that Sam killed a California lion during a terrible conflict on the heights of Lorin the other night, while as regards his fishing exploits, it is believed that he will be able to supply all his friends with finny delicacies from Temescal creek for some time to come.

A Cloud on the Title.

Chairman Bart Morgan of the Board of Supervisors stated this morning that the board had abandoned the project to purchase thirty acres of land in front of the County Infirmary, as recommended in the Grand Jury report. It has been ascertained that there is a cloud on the title to the property which cannot be easily cleared.

THE NEW THEATER.

It Is Now an Assured Success.

Oakland is to have a new theater. It will be equal in beauty to the Baldwin or the California, so it will be no longer the fashion to go to San Francisco and suffer a long and unpleasant journey to see a theatrical performance. But there are other kinds of performances. The Whitney and Standard Express for instance, are the people who will do your transferring cheaply. They perform all their work well.

The plasterers report that the contractor now doing the plastering in the new Unitarian Church will work a union crew as soon as that job is completed.

The plumbers are trying to convince Dalziel & Moller that it would be to their advantage to employ other men even if they don't like the union scale of wages.

The musicians have succeeded in increasing the scale of prices for theatrical work. Their scale is now for six engagements within one week, $18; temporary engagements, $3 50 per night. This union has recently considered the proceedings of the National League of Musicians and finds that one resolution adopted by that body will likely be of great benefit to the members of Local No. 33 of this city. The resolution requests "all Locals to make such laws as will prevent any leader or conductor of any band or orchestra in taking an engagement in another city; from engaging an orchestra from his own Local, until he shall have first ascertained from the secretary of the Local whether the competent assistance he requires cannot be obtained either wholly or in part from the Local in the locality where the engagement is to be fulfilled. Nor shall he be permitted to colonize musicians in said locality if the same can be obtained."

A MARYSVILLE SCANDAL.

The Unfortunate Circumstances of a Preacher's Departure.

Sacramento Bee.

The *Bee* a short time ago contained an account of the death, under suspicious circumstances, of Miss Tina Forney at Colusa, and detailed the result of an investigation by Coroner Leining, which indicated that the girl's death was from natural causes.

The Marysville *Appeal* of this morning states that the Coroner is not yet satisfied with the investigation, and proposes to have another, owing to the pressure of public opinion.

It appears that a minister of the Christian Church named Dorsey became enamored of Miss Forney, who was a domestic in his family, and epistles of an endearing nature from the minister to the girl were intercepted by his wife. Soon after this the girl died after but a few hours' illness.

The Marysville *Appeal* goes on to say:

"After her death the little Dorsey girl, in the presence of several ladies, made a statement that her father had written some nice love letters to 'Sina (meaning Miss Forney) and that mamma did not like it. This, and other remarks made at that time, caused much comment.

"About the time that the suspicions of foul play were being mooted about Dorsey and his wife announced that they were going East, and one day when several citizens spoke of taking steps to detain him pending an investigation, they left.

"The majority of the people in Colusa are satisfied that there was something crooked in the matter and are asking for a thorough inquiry into every detail."
